

Yang Chi Hung

0920114357 / thomasyang0318@gmail.com / <https://thomasyang0318.github.io>

Computer Science student with hands-on experience in C++, Python, AI, and embedded systems, with projects spanning wearable sensing, machine learning, and workflow automation. Experienced in cross-domain development from sensor integration and data processing to model development and edge deployment, with demonstrated leadership and cross-functional collaboration skills. Seeking to apply software-hardware integration and problem-solving skills to software, AI, or embedded systems development.

Work Experience

Electronic Engineering Assistant Intern

Panasonic

Jul 2026 - Present

- Supported component approval and engineering specification preparation in a rugged-computer development environment, contributing to [number] successful product releases.
- Developed a Python-based automation workflow integrated with the company SQL database to retrieve product information and generate Excel documents, reducing the specification-preparation workflow from over 30 minutes to under 1 minute and significantly improving data consistency and maintainability.
- Participated in equipment analysis related to airtightness, gaining exposure to hardware-system and mechanical integration.

Part-Time Assistant, Operations Division, Computer Center

NTPU

Jul 2024 - Present

- Maintained university computer labs by performing equipment inspections, AV setup, and instructional software testing.
- Assisted faculty and students with installing and configuring university-licensed and Microsoft software.
- Diagnosed and resolved [number] hardware, software, network, and BIOS issues, documenting root causes and solutions.
- Identified a non-booting PC as a BIOS issue and successfully restored system functionality using a bootable BIOS update.

Research Assistant, ESA Lab

NTPU

Sep 2024 - Dec 2025

- Contributed to embedded-system and smart-wearable research by integrating sensors, prototyping devices, and validating systems, resulting in [number]% improvement in system performance.
- Redesigned the camera mount and enclosure of a sitting-posture detection system to support [number] chair types and enhance internal visibility.
- Co-authored and secured approval for an NSTC three-year research proposal, a University System of Taipei project, and an IRB application.

Education

National Taipei University (NTPU)

Department of Computer Science and Information Engineering, Electrical Engineering (Double Major)

Sep 2023 - Jun 2027

GPA: 4.2/4.3, ranked in the top 10% of the class

Skills

Hard Skills

C++ (data structures, algorithms, OOP), Python (data processing, automation, ML), C, SQL, PyTorch, IMU/PPG signal processing, human activity recognition, model training and evaluation, Arduino, sensor integration, circuit prototyping, soldering, embedded AI deployment, Flutter, REST API development, Git, GitHub, Linux, MATLAB, PostgreSQL, Microsoft SQL Server

Soft Skills

Team Leadership, Cross-functional Collaboration, Problem Solving, Communication, Project Coordination, Debugging

Leadership Experience

Class Representative • NTPU

Sep 2023 - Present

Facilitated effective communication between students and the department, supporting faculty-student activities for 60 students and ensuring efficient event coordination.

Camp Director, NTPU Feiyuan Computer Science Camp • NTPU

Jun 2025 - Jul 2025

Led the planning and execution of a 4-day camp for 60 participants, overseeing 6 team leads and 20 staff across six functional teams, coordinating progress through regular leadership meetings and achieving a 4.7/5 participant satisfaction rating from 40 respondents.

President, Department of Computer Science Student Association • NTPU

Sep 2024 - Jun 2025

Coordinated and supported over [number] department meetings, orientation sessions, and major campus events, and successfully organizing [number] freshman and interdepartmental activities that enhanced collaboration across departments.

Competitions

Honorable Mention, 2024 National Collegiate Programming Contest

Third Place, National Taipei University Capstone Project Exhibition
